Our most active customers will receive our bulletin automatically and free of charge. However, collectors interested in highly specialized areas and those who may order infrequently are asked to subscribe, as are those who want the bulletin by air mail. The names of non-subscribers may be removed from our mailing list at any time without notice.

Postage and insurance (or registration) fees will be billed to customers who order without sending advance payment. We will absorb the mailing fees on orders accompanied by full payment. All orders under $5.00 must include $.25 for handling. The above also applies to overseas orders. However, we cannot be liable for coins sent to countries that do not provide for insurance.

Applicable Texas Sales Tax must be included on all intra-Texas transactions. Texas dealers must furnish their permit number in order to be exempt from the tax. All prices quoted are in United States Funds.

All coins are guaranteed to be genuine unless otherwise noted. All items except books and coin supplies are sent on five day approval. Unless prior extension is arranged, all items must be completely paid for within fourteen days after their dispatch from our offices. After that a 1% per month interest charge will be added.

COINS OF THE BRITISH WORLD

During the past four months, we have noted a gradual escalation of the collector interest level in British Commonwealth coinage. Interestingly, nearly every order we receive for coins from this section comes from collectors; their orders usually indicate a moderately advanced collection of their paticular specialty. Given these circumstances, we shall endeavor to offer a good selection of the scarce and rare dates and types at prices correlated to collector demand as we can gauge it. Also note the collection offered as an addendum to this section; in it are some of the nicest pieces on the market today.

ADDENDUM - Coins of the British World

The following represents segments of the nicest collection of British empire coinage we have offered since Al Almanzar sold his own collection through the medium of this bulletin in 1963-1965. Serious collectors will note the fantastic quality of many of the pieces;the collection was put together over a ten-year time span.

EIGHT REALES AND PESOS OF THE NEW WORLD

The references used to catalog this section are primarily Ehzondo's Eight Reales and Pesos of the New World book, the first numbers being the code numbers and the "E" numbers being the type. Then each coin is cross-referenced to either Yeoman's Catalog of Modern World Coins book or Craig's Coins of the World 1750-1850.

Ehzondo's numbers are being used by all of the leading numismatists in the United States and overseas. Collectors without a second edition are urged to obtain a copy. The book is available from us at $12.50 postpaid.

GUATEMALA COUNTERSTAMPS have become increasingly popular since they were listed [illegible] date in Elizondo's 2nd edition; we have been selling them as son as we get them. The collector will be interested in realizing that the prices indicated on pages 192 and 193 of Elizondo's book are meant to be for Fine, Very Fine and Extremely Fine. You can verify this by looking at pages 194 and 195. Also, in 99% of the cases the counterstamped coins are rarer than the regular issues. If you compare evaluations in Elizondo's book of the re-

gular issues and counterstamps, you will note that some of the counterstamp evaluations are lower.

#14 E5 Y25a 1 Peso 1883 - It gives a great deal of pleasure to be able to offer what we consider a rarity of a high degree. We believe this coin to be in fact one of the key coins for date collectors of Latin American crowns. This same date without the 25 gmos, (Eliz. type 4, Y25) will not be as rare. However, this particular piece with the 25 gmos on the reverse is being offered by us. We believe that this date is in fact as rare as the 1914 Peso but only lacks public recognition. PERU (NEW ISSUE) - 50 Soles, Silver 1821-1971, 37mm, 22 grams. Obverse: Bust of Tupac Amaru, last of the Incas. Reverse: Shield and legend. Mintage reports on this coin have differed. Most of the information we have gives 10,000 and up to 20,000. In our March 1, 1972 catalog, we offered this coin in BU for $8.50. We received over 200 orders and filled as many orders as possible and backordered the rest. We were promised a shipment of 200 pieces and this shipment never arrived. But recently we were able to obtain a small group of them from one of our sources at a much higher price. We filled all backorders we still had on record. However, many "paid" back-orders were refunded before this shipment arrived. Anyone who has been refunded for a "paid" backorder and who has not obtained this coin, may do so at the $8.50 price if they can present us with a proof of order. However, due to our inability to obtain additional pieces, we are offering the remainder of the small group at 11.50 each.

MEXICO

We are pleased to announce that we have just acquired what we consider to be an extremely scarce book. Previous to this purchase it was not known to us. The title is MONEDAS MEXICANAS, 1536-1966 by Jose Leon Robles de la Torre. It was published at Torreon, Coahuila, Mexico in 1968. It has a large 8 3/8 by 11 inch format and 196 pages. It is extremely well-illustrated and although in Spanish should present no difficulties to the non-Spanish reader due to these illustrations. It is extremely interesting to view the differences in pricing between this book and the catalogs published in English. We have 17 copies and doubt if we can get more. Our price of 7.00 includes prepaid shipping in the U.S.

MEXICO (CONT)

A necessity for the specialist and a desirable book for any numismatist. Books are new but slightly shopworn.
